7	Filtr / Filter	1
8	Klip / Clip	4
9	Panelový klip / Side panel clip	1
10	Horní klip / Top clip	1
11	Filc / Felt	2
12	Filc / Felt	1
13	Zátka / Plug	Příslušenství / Accesories

1.

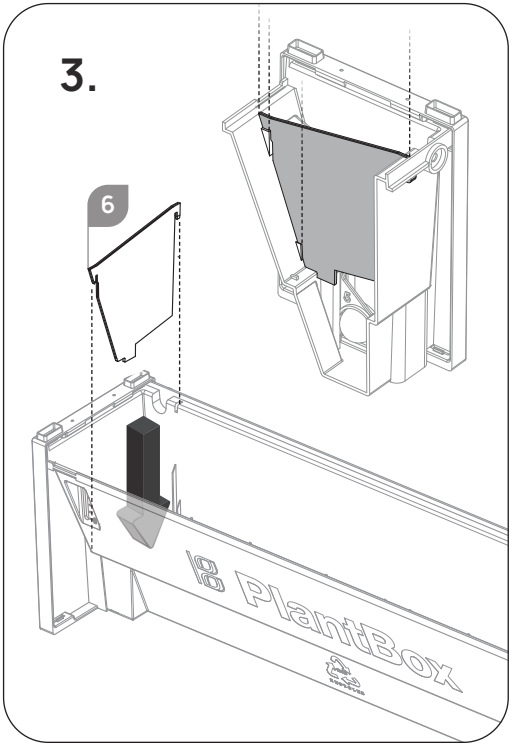

B - Uslyšíte hlasité „**CVAK**“
B - You will hear loud „**CLICK**“

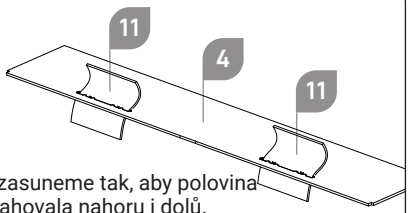

2.

3.

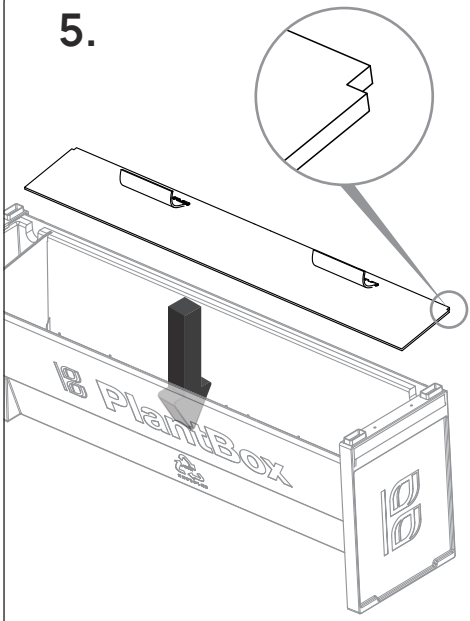

4.

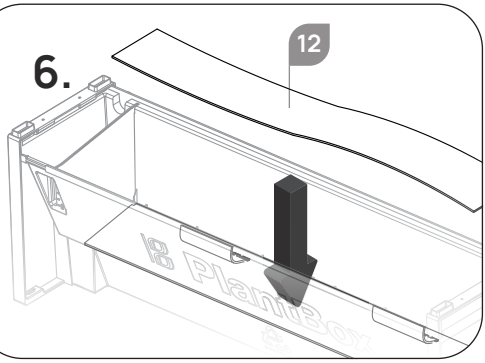

Filc zasuneme tak, aby polovina přesahovala nahoru i dolů.

Insert the felt so that half of it sticks out at the top and bottom.

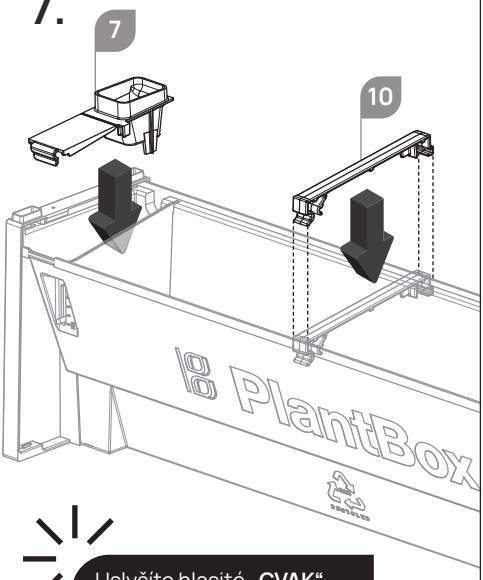

5.

6.

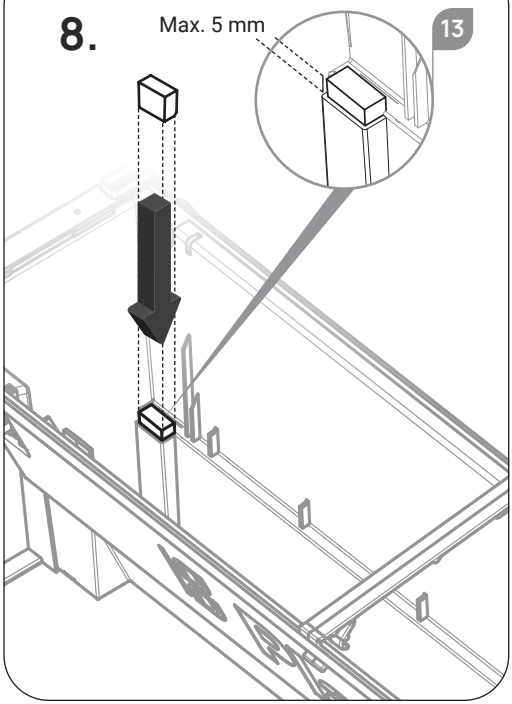

7.

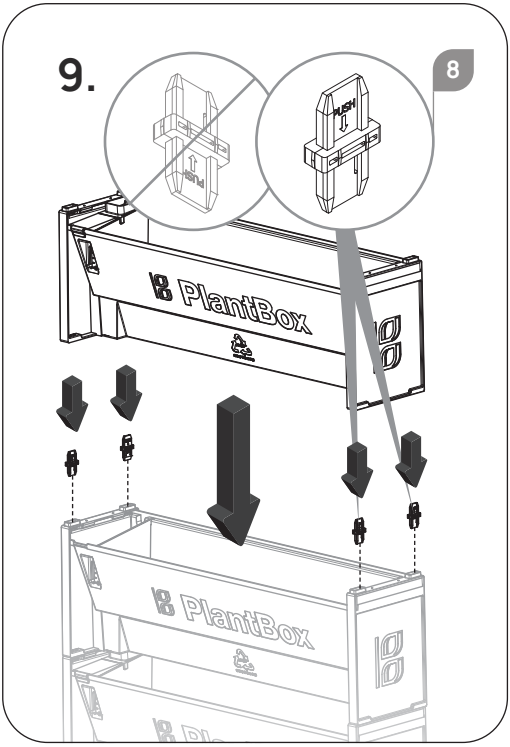

Uslyšíte hlasité **„CVAK“**
You will hear loud **„CLICK“**

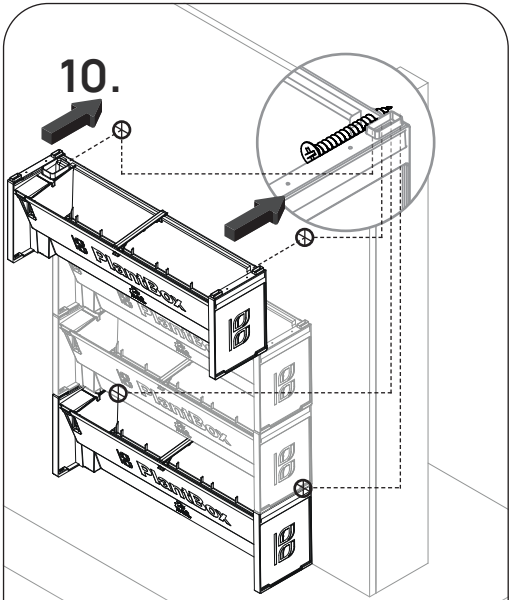

8.

9.

10.

První a každý třetí PlantBox je potřeba ukotvit ke stěně.

First and every third PlantBox must be mounted to the wall.

11.

PlantBox - Závlaha / Irrigation

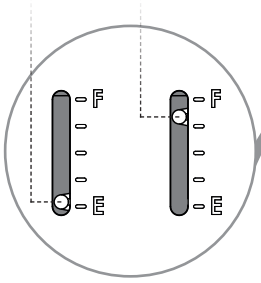

PlantBox se zalévá z levého horního rohu každého sloupce. Jakmile je nádrž plná, voda přepadává do dalšího PlantBoxu.

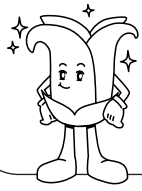

PlantBox is watered from the top left hand side of each column. Once the water resevoir is full, water cascades into the next unit.

Ukazatel hladiny se pohybuje podle množství vody v každém PlantBoxu.

The water level indicator moves according to the amount of water in each PlantBox.

Stačí jednou za **2 týdny**
Every **2 weeks** is ideal

PlantBox - Rostliny / Plants

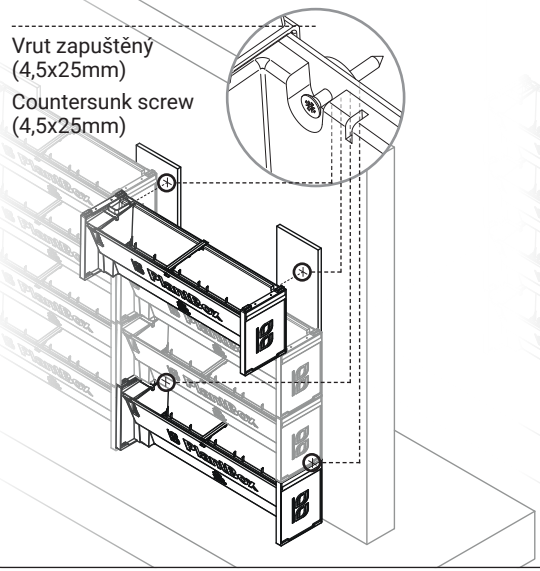

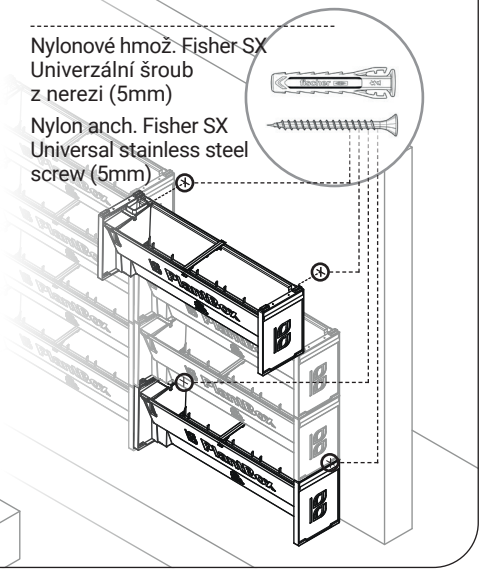

Do každého PlantBoxu sázíme vždy 4 kusy zvolených rostlin. Vhodné jsou pokojové rostliny, trvalky, drobné ovoce a zelenina.

We always plant 4 of the selected plants in each PlantBox. We recommend using housplants, perrenials, herbs or even small fruits and vegetables.

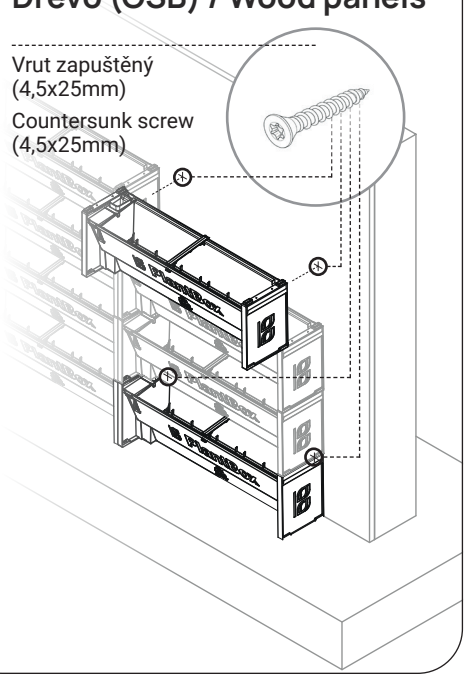

PlantBox - Kotvení / Anchoring

Beton / Concrete

Dřevo (OSB) / Wood panels

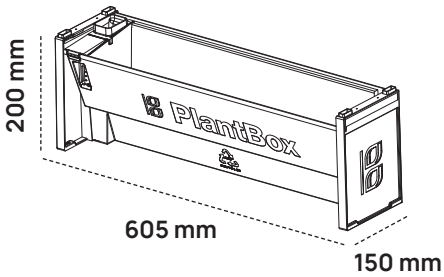

Zasazeno? Pochlubte se!
Za sdílení posíláme malou odměnu.

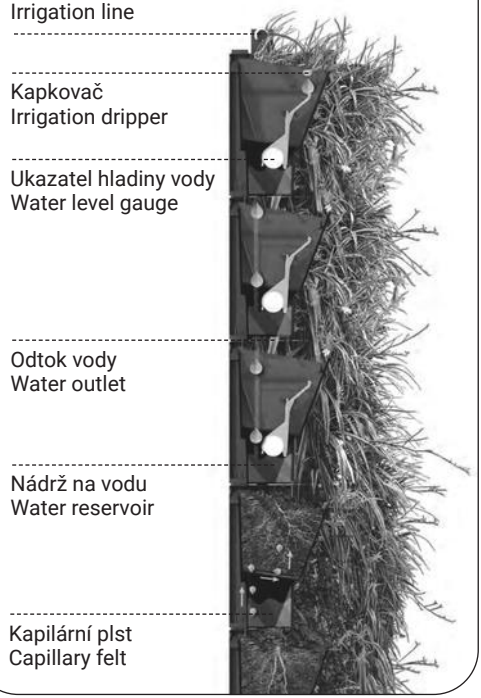

Planted? We'd love to see it!
We'll send a little reward for sharing.

Technická specifikace

Použití	interiér / exteriér
Rozměry modulu	605 x 200 x 150 mm
Materiál	100% recyklovaný polypropylen
Konstrukce	modulární, nenosná
Hmot. modulu	2 kg
Povolená hmotnost výsadby	2 kg
Plně nasyceno	70 kg/m^2
Závlaha	kaskádový systém, automatická, nebo ruční
Kapacita nádrže	1,8 l
Kotvení	2 body na šířku 600 mm
Max. výška stěny	bez omezení
Max. šířka stěny	bez omezení

Technical specifications

Use	indoor / outdoor
Module dim.	605 x 200 x 150 mm
Material	100% recycled polypropylene
Structure	modular, non-load bearing
Module weight	2 kg
Permitted planting weight	2 kg
Fully saturated	70 kg/m^2
Irrigation	cascade system, automatic, or manual
Reservoir capacity	1,8 l
Anchoring	2 points / 600 mm width
Max. wall height	no limit
Max. wall width	no limit
